MEMORANDUM

4-584

SUBJECT Stewart Sanitary Supply (Tholozan) Site, Immediate Removal

FROM Robert L. Morby, Chief
Waste Management Branch *[Signature]*

TO William Keffer, Chief
Emergency Planning & Response Branch

THRU John C. Wicklund, Director
Environmental Services Division *[Signature]*

We have reviewed the data in your March 30, 1984, memo regarding soil contamination with Mr. Ed Skowronski (Centers for Disease Control) and Mr. Leo Alderman (Toxics and Pesticides Section) and determined that there is inadequate justification for removing the contaminated soil based on what we know at this time.
